		Acknowledged by:  PT. Sansan Saudaratex Jaya	

PT. Sansan Saudaratex Jaya committed to always understand, prevent and minimize any adverse effects to environment in connection with production activities garment industry, and continues to provide quality products that are expected consumers and customers and create a safe working environment for all employees.

We convinced that all employees of PT. Sansan Saudaratex Jaya and everyone who joined in the company collectively own an important role in implementing environmental policy in this company. We are trying to empower our employees to be able to involve themselves fully.

Several things into we as a company committed to the environment are:

1. Achieve performance in environmental protection according with applicable rules and regulations.
2. Implement and maintain a sustainable environmental management system, and constantly improve and review in order to continue in line with the company
3. Providing training so that employees better understand and realize the importance of environmental protection
4. Minimize, prevent, reduce, reuse and process all the waste generated in our own area, and to ensure that waste disposal procedures in a safe manner and minimize the impact to the surrounding environment possible
5. Requesting suppliers and business partners to meet the standards of processing

Further, all things related to the procedures for environmental protection will be instituted gradually and continuously to the staff and employees.
